Customer Support and SLA Handbook

How the customer success team handles tickets, escalations and service credits | Version 2.4

About this dataset: Meridian Freight Technologies is a fictional company created for document retrieval, chunking, embedding, and Self-RAG evaluation. All people, email addresses, policies, product and service names, prices, and operational figures in this document are invented. Any resemblance to real organizations, persons, or products is purely coincidental. This document is not real policy, advice, or a commercial offer, and must not be relied on for any real-world decision.

1. Support Channels and Hours

Channel	Launch plan	Scale plan	Enterprise plan
Email (support@meridianfreight.example)	Yes	Yes	Yes
In-app chat	No	Yes	Yes
Phone hotline	No	No	Yes
Hours	Mon-Fri, 9 AM-6 PM IST	Mon-Sat, 8 AM-10 PM IST	24x7x365
Named customer success manager	No	Shared pool	Dedicated

2. Ticket Priority Levels

Priority	Definition	Example
P1 - Critical	Product unusable for all users or data loss	FleetPulse shows no vehicle locations for any customer fleet
P2 - High	Major feature broken, workaround exists	RouteMind cannot import orders from CSV but manual entry works
P3 - Medium	Minor feature problem or question affecting a small group	Driver score report shows wrong date format
P4 - Low	General question, feature request or cosmetic issue	Request to change the colour of the map pins

3. Response and Resolution Targets

Targets are measured from the moment a ticket is logged during support hours (24x7 for P1 on Enterprise).

Priority	Launch: first response	Scale: first response	Enterprise: first response	Enterprise: target resolution
P1	4 business hours	1 hour	15 minutes	4 hours
P2	1 business day	4 hours	1 hour	1 business day
P3	2 business days	1 business day	4 hours	3 business days
P4	5 business days	3 business days	1 business day	Next release

4. Uptime Commitment and Service Credits

Uptime is measured monthly and excludes planned maintenance announced at least 48 hours ahead. Planned maintenance windows are on the **first Sunday of each month, 1:00 AM to 3:00 AM IST**.

Plan	Monthly uptime commitment	If uptime falls below commitment	If uptime falls below 99.0%
Launch	99.5%	5% credit of monthly fee	10% credit
Scale	99.9%	10% credit of monthly fee	20% credit
Enterprise	99.95%	15% credit of monthly fee	25% credit

Credits are not paid out in cash; they are applied to the next invoice. A customer must request the credit within **30 days** of the end of the affected month. The maximum credit in any month is 25% of that month's platform fee.

5. Escalation Path

- **Level 1:** Support engineer - handles the ticket from first response.
- **Level 2:** Senior support engineer or product specialist - takes over if the ticket is unresolved for 50% of the target time.
- **Level 3:** Engineering on-call - engaged for all P1 tickets and for P2 tickets unresolved after the target time.
- **Level 4:** VP Customer Success and CTO - informed for every P1 lasting more than 2 hours.

6. Customer Satisfaction

After a ticket is closed, the customer receives a one-question survey rated 1 to 5. The team's internal goal is an average score of at least **4.5** and a first-contact resolution rate of 70%. Any score of 2 or below triggers a call-back from a team lead within one business day.

7. Cancellation and Refunds

Customers can cancel a plan with a 30-day written notice. Annual plans are not refunded for the unused period, except where MFT fails to meet the uptime commitment for three consecutive months, in which case the customer may terminate and receive a pro-rata refund.
